## Cedar Lane Roadway Reconstruction

Work on the Cedar Lane roadway reconstruction project is underway. Cedar Lane is being reconstructed from the north side of Brown Lane to Horton Road. The project also includes reconstructing one block of 5<sup>th</sup> Street NE from Cedar Lane to Garner Drive, and one block of Evans Street from Cedar Lane to Emery Drive.

Local resident access will be maintained by various means during the project & will be communicated to individual neighborhoods. Brown Lane will remain open for the duration of the project.

Stage 2 work will reconstruct Evans Street and Cedar Lane from Evans Street to Brown Lane.

The streets are being reconstructed with full-depth P.C. concrete. This reconstruction project is part of the City’s five-year capital improvement plan for maintaining higher traffic streets.

# Water Pollution Control Facility

Work is progressing on the Water Pollution Control (WPC) Facility Improvements project. The project began in May 2021, and one of two oxidation ditches is scheduled to be operational this fall. The work is scheduled to be completed in the fall of 2023.

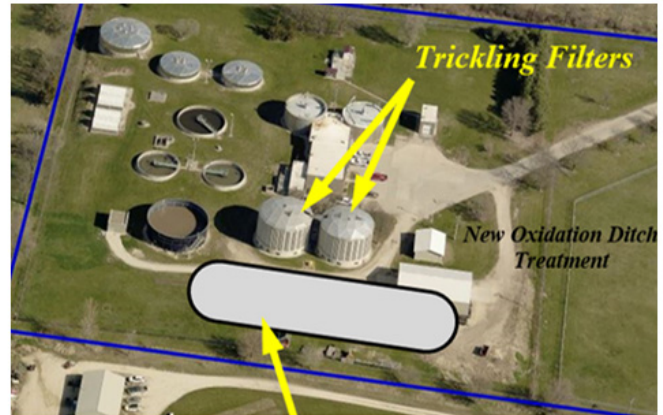

Waverly's WPC facility was placed in operation in 1980 and the trickling filter treatment system is nearing the end of its useful life. The existing trickling filter treatment process is not capable of achieving the total nitrogen and total phosphorus reduction goals set forth in the Iowa Department of Natural Resources (DNR) Nutrient Reduction Strategy. In order to achieve compliance with the Nutrient Reduction Strategy, the City's WPC facility will alter the treatment process with the construction of these oxidation ditches. These improvements will meet the treatment needs of our steadily growing population and serve the community for decades.

*Trickling Filter Deterioration and Leakage*

*Progress on Waverly's WPC Facility Improvements*

*Example Oxidation Ditch Treatment*

# Bituminous Seal Coat Program

The Bituminous Seal Coat Program is a road maintenance procedure that consists of the placement of oil and rock upon a street.

View the site map that shows all of the streets that will be seal coated this summer on Waverly's website at [waverlyia.com/projects](http://waverlyia.com/projects) or stop by the Engineering Office in City Hall to view the map.

Approximately 70 City blocks will be seal coated, with the majority of the work will occur on the north side of West Bremer Avenue. This project will be completed by mid-August.

*Contractor placing rock over oiled street. As soon as the rock has been placed on street, vehicles may drive slowly on the new surface.*

# Recycling in Waverly

The City of Waverly is committed to making it easy for residents to recycle. We provide curbside recycling and access to our Recycling Center at 2800 5<sup>th</sup> Avenue NW.

The Recycling Center is open Monday – Friday, from 7:00 a.m. – 5:30 p.m. and Saturday from 8:00 a.m. – 4:00 p.m. It is closed on Sundays and Holidays.

## Curbside Recycling

Residents may participate in curbside recycling by renting a 35 or 65-gallon recycling container from the City for \$3.50 per month. Curbside recycling is picked up every other week on your regular trash pick-up day. Contact Public Services at (319) 352-6247 to sign up for curbside recycling.

The following items can be commingled in your recycling container and picked up curbside:

- Aluminum
- Cardboard, Corrugated & Single-Layered
- Magazines & Slick Paper
- Newspapers
- Paper, White and Colored
- Phone Books
- Plastic Containers (Recycling symbol numbers 1, 2, 3, 4, 5 & 7)
- Steel/Tin Cans

**All items need to be clean and should not be bagged inside the recycling container.**

## Keep Our Recycling Clean!

Pay special attention to the list of items that cannot be recycled, and make sure that items are clean. Items that are not recyclable or clean can contaminate a whole load of curbside recycling.

## Recycling Center

In addition to the items that can be collected curbside, the following items can be brought to the Recycling Center:

- Christmas Light Strands
- Motor Oil
- Paperback Books
- Shredded Paper
- Styrofoam (White Only – No Food/Beverage Containers)
- Styrofoam Peanuts

## Not Recyclable

The following items cannot be recycled and should be disposed of in the trash:

- Hard-Covered Books (unless covers have been removed)
- Plastic Utensils, Straws, Paper Plates
- Plastic Bags
- Gift Wrap
- Bottle Caps (if no recycling symbol)
- Tissues and Paper Towels
- #6 Plastics and Plastics Without a Recycling Symbol
- Styrofoam Food/Beverage Containers
- Wax Cartons (such as milk, juice or butter boxes)
- Plastic Cooking Oil and Motor Oil Containers
- Plastic Chemical Containers (herbicide, fungicide, insecticide, paints, paint thinner)

### 2021 Annual Drinking Water Report

The Waverly Water Division is pleased to report that our drinking water is safe and meets federal and state requirements. For the reporting period covering January 1, 2021, to December 31, 2021, the water supplied by the Waverly Water Division did not have any water quality violations. It met the standards set forth by the Environmental Protection Agency (EPA) and the Iowa Department of Natural Resources (IDNR).

The Waverly Water Division routinely monitors for contaminants in your drinking water in accordance with federal and state laws. The state requires us to monitor for certain contaminants monthly, annually and some less than once per year because the concentrations of these contaminants are not expected to vary from year to year.

To view the complete report visit [www.waverlyia.com/waterreport](http://www.waverlyia.com/waterreport) or click on the QR Code. You may also call or stop by the Public Services Center at 2900 5<sup>th</sup> Avenue NW to request a copy of the report.

Other Violations – In March 2022 we failed to monitor for 2 quarterly nitrate and 2 monthly nitrate samples. The samples were collected and submitted as normal, but due to lab error they were not considered valid. Adverse health effects, if any, are not known. Monitoring procedures have been corrected to avoid future violations.

### Annual Fly-In Breakfast Sunday, July 17, 2022 Waverly Municipal Airport 7:00 a.m. to Noon

The Lions Club of Waverly will be serving a pancake breakfast at the Waverly Municipal Airport for a freewill donation. The money raised will be used for future service club projects in the Waverly area.

Airplane rides will be available from 8:30 a.m. – noon for \$40. Aircraft will also be on display.
