7. Description

The Algie and Theresa Fettkether House at 708 1st Avenue SW is estimated to have been constructed in 1919 according to the Bremer County Assessor's records. Property Transfer Records show Lot 7 passing from Helen Ellis who owned all of Block 19 beginning in 1907 to A.E. Fettkether on 9/8/1923. A newspaper account on 4/24/1924 in the *Bremer County Independent* identifies Algie Fettkether as building a house. The 1924 telephone directory published in November 1924 does not list Fettkether at this address but two years later in May 1926, the 1926 telephone directory does list this address under A. E. Fettkether. This public information confirms a construction completion date of late 1924 or prior to May 1926.

The house is an example of a vernacular Hipped Roof, 2-Story house form popularized during the pre-WW I years known as the "American Four-Square." The building has a clay tile block foundation likely manufactured in one of the Mason City tile works. Narrow-width clapboard-style vinyl siding and corner board trim cover the walls. It has a moderate-pitched hipped roof with hipped-roof attic dormers centered on the slopes. A low-pitched hipped roof porch spans the front façade with infill windows above the closed, vinyl-clad balustrade. Half-height square columns are at the outer corners and the pediment above the centered porch entrance features an original sunburst motif.

Fenestration includes widely spaced single and paired 1/1 double-hung windows on the upper levels and both side faces. Cottage windows with short horizontal upper sash flank the entrance to the main house. The attic dormers have small paired 1/1 double-hung windows. On the side facades, several horizontal single-light sash and a window set between levels are placed to mark internal functions such as a staircase landing or buffet placement. The property has a single-bay garage with a low-pitched front-gable roof built sometime after the house was finished. It faces 1st Ave SW with a driveway along the east side of the house. Wall cladding is wide-clapboard style siding. The garage is considered noncontributing.

8. Significance

The Fettkether House at 708 1st Avenue SW derives significance as a contributing resource in the Sturdevant SW Historic District under both Criteria A and C. The historic district qualifies for the National Register of Historic Places as a well-preserved collection of mid and late 19th century and early 20th century architectural styles and vernacular house forms located in Waverly's southwest residential neighborhood.

Historical Background for Waverly¹

Waverly was established in 1853 along the Cedar River in Waverly Township located in southeastern Bremer County. It was designated as the county seat for Bremer County the same year that the county was officially organized and was formally incorporated in 1859. Like most Iowa towns established before the Civil War, growth during the early 1860s was deferred until after the war came to a close. Waverly's first railroad, the Cedar Falls and Minnesota Railroad was extended to Waverly in 1864. Eventually track was also laid for other branch lines and an electric interurban. By 1917 track for branch lines was absorbed by the Chicago and

Great Western Railroad and the Chicago, Rock Island and Pacific Railroad. Track for the electric interurban – the Waterloo, Cedar Falls, and Northern – was laid in 1910 but usage was never as substantial as predicted.

Waverly grew in the manner typical of other Iowa county seats in the late 19th and early 20th century. Its commercial center extended along the east-west route of Bremer Avenue on both sides of the Bremer Avenue Bridge that crossed the L-shaped course of the Cedar River as it passed through the center of town. The county courthouse was located outside of the commercial area on a slight prominence at the east end of Bremer Avenue. Residential districts grew up in the four quadrants formed by the intersecting main street and river. The broad, generally flat profile of both the business district and early residential neighborhoods saw the regular occurrence of flooding resulting in the gradual replacement of most first generation frame building stock. German immigrants were among the largest ethnic group to populate Waverly during the 19th century establishing religious institutions with ethnic affiliations such as St. Paul's Lutheran Church in the northwest quadrant, St. Mary's Roman Catholic Church in southeast quadrant, and the German Methodist Church.

Bremer County and its county seat of Waverly prospered during the late 19th and early 20th century becoming a retail and professional services center for Bremer County and sections of adjacent Butler County. The county's standing as the "Dairy Spot of Iowa," gave rise to a number of dairy industries including a manufacturing plant operated by the Carnation Milk Products Company for the production of condensed milk in the 1920s. Population stood at 16,300 people in 1900 before the growth rate slowed before World War I. By 1930 population topped 17,000. Expansion of a Lutheran seminary in Waverly first located in the community in 1879 through the relocation of Wartburg College to the community in 1939 was a cultural and economic stimulus for the community. Waverly continued to add a 1,000 people per decade until 1950 when the post-War boom saw growth accelerate to more than 21,000 by 1960. During the past 50 years population has slowed somewhat topping out at 23,325 in 2000.

Historical Background for the Fettkether House at 708 1st Avenue SW

The Fettkether House at 708 1st Avenue SW is located in Block 19 of the Wm. Sturdevant Addition. The southwest quadrant of Waverly includes additions platted by early Waverly settlers, Ira Sturdevant and his son William Sturdevant. The Sturdevant family moved to the unsettled area along the Cedar River in the mid-1850s. Ira received a 40-acre federal land grant based on his military service in the War of 1812. William acquired 80 acres of adjoining land to the north of his father's 40-acre parcel. In 1857 the William Sturdevant's Addition was laid out and in 1860 the Ira Sturdevant Addition was platted. Growth remained relatively slow in these subdivisions until after the Civil War.

The Fettkether House was constructed sometime between the purchase of Lot 7 by A.E. Fettkether on 9/8/1923 and 5/1926 when the address for the house first appears in a Waverly telephone directory. In between, a newspaper account of its construction appeared on 4/24/1924 in the *Bremer County Independent* identifies Algie Fettkether as building a house in southwest Waverly. Algie Earl Fettkether and his wife Theresa M. resided at this address until they sold the property on 10/1/1938 to Walter C. Huck and his wife Aldora E. Huck. Walter died in 1979 and Aldora held it in a life estate beginning in 1994.
